

Dual Cubicle Divider - NO Tools Required - (2) 108" x 48" x 24" Sections - 1/4" Thick Clear PETG Construction - Sneeze Guard

SL-MD-WKC-PCD-CD-R3

The SL-MD-WKC-PCD-CD-R3 from SAVILite is a PETG Cubicle Divider that helps to protect people and employees working at cubicles by adding a clear barrier to the top of the cubicle walls.

The XLE-MD-PCD-CD-R3 protective divider is constructed from 1/4" thick PETG that is both durable and easy to clean. The PETG is clear and easy to see through as well as being more impact resistant than glass. No tools are required to assemble this sneeze guard. The pieces simply snap together for easy and fast assembly.

PETG in a sheet form is stronger than acrylic and less likely to break or get damaged while in operation. It has similar strength characteristics as polycarbonate. Unlike polycarbonate, PETG is food grade safe.

Dimensions: The SL-MD-WKC-PCD-CD-R3 cubicle divider measures 108" in length by 24" in height for the front sections, and 48" height by 24" height for the side sections. This unit covers two 9ft cubicles, for up to four desk spaces. There are two front sections and six side sections. This unit has snap-in bottom retainer mounts for convenient use on top of cubicles. This unit covers three sides of the four desk spaces within the cubicle.

At SAVILite, we do more than meet your lighting needs. We also provide replacement, retrofit, and upgrade parts as well as industrial grade power accessories. Our craftsmen can custom build any lighting system and/or accessories to fit the unique demands of your operation.
